BEST of year
FINALIST 2020

**INTERIOR
DESIGN**

The new design Zoom electronic faucets EX22 for cold or premixed water and matching soap dispensers EX23. The Zoom fixtures are available in polished chrome, polished nickel, brushed nickel, brushed gold, titanium, and matte black. The faucet has integrated infrared sensor with variable sensor distance and auto stop safety feature. The touchless electronic sink faucets offer the most convenience and touch-free safety from spreading undesirable pathogens. These commercial grade automated fixtures promote water use savings and environmental consciousness. These are highly recommended fixtures for all public and private spaces that can be installed to meet ADA standards and meet all WaterSense criteria.
