

Suave oval sink 6060S with a side deck to accommodate a faucet or necessary accessories can be used in a vessel on-counter installation or pedestal mounted with matching full-bodied column.

The product is designed and produced in the USA assuring its originality and uniqueness. The combination of the product materials is highly coveted in the current market trends, including delicate and thin profiles, strong materials, and classic mid-century simultaneously modern design. The Suave vanity was inspired by the pursuit of perfection in balance - it seeks a perfect balance between light yet strong, beautiful but practical, simple yet intricate. The vessel sink can be installed in residential or commercial setting with faucet hole options that allow for deck or wall mounted faucets with an optional accompanying soap dispenser. The material is versatile to withstand heavy use and is also non-porous and consistent in color and composition so minor damages can be repaired. Solid surface is renewable and completely resistant to bacterial and fungal growth.
